

Einige der ermutigendsten Graphiken über den Zustand der Menschheit, die man jemals sehen wird

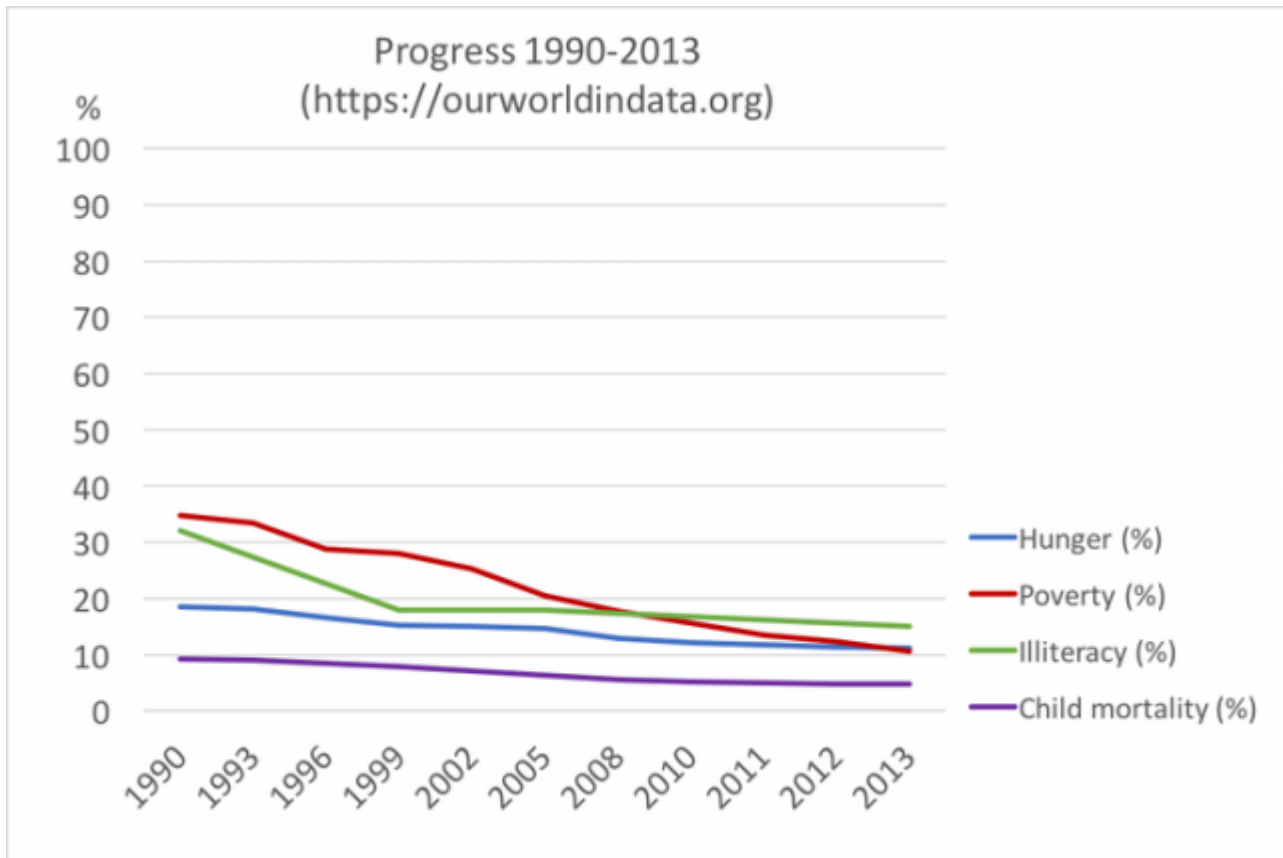

Diese Graphik ist ziemlich erstaunlich. Niemals zuvor hat sich die Welt so verändert wie von 1990 bis 2015:

[Illiteracy = Analphabetentum]

Hier noch eine Graphik:

Es gibt viele Daten, die man auf dieser Website erkunden kann:
<https://ourworldindata.org/>.

Im Einzelnen fand ich die folgenden Graphiken interessant, besonders diejenige bzgl. Kernkraft:

Death rates from energy production per TWh

Death rates from air pollution and accidents related to energy production, measured in deaths per terawatt hours (TWh)

Our World in Data

Source: Markandya and Wilkinson (2007)

OurWorldInData.org/energy-production-and-changing-energy-sources/ • CC BY-SA

Note: Figures include deaths resulting from accidents in energy production and deaths related to air pollution impacts. Deaths related to air pollution are dominant, typically accounting for greater than 99% of the total.

Fatality rates in the US due to weather events, United States

Annual death rate per million.

Our World in Data

Number of deaths from natural disasters, All natural disasters

Absolute number of global deaths per year as a result of natural disasters. "All natural disasters" includes those from drought, floods, biological epidemics, extreme weather, extreme temperature, landslides, dry mass movements, extraterrestrial impacts, wildfires, volcanic activity and earthquakes.
